● ANDEAN PRODUCTS

Quinoa:

- It has a subtle flavor, contains fewer calories, has a good amount of fiber, so it promotes a healthy digestive system, controls blood sugar levels, and provides a feeling of fullness. Rich in protein, which makes it an excellent natural fat burner and strengthens muscles and tissues. It is also lower in carbohydrates and contains large amounts of vitamins and minerals.

Grains:

White Quinoa

Red Quinoa

Black Quinoa

Mixed Quinoa

Derivatives:

Quinoa Flakes

Quinoa Flour

Flour of canihua

● ANDEAN PRODUCTS

Amaranth Grain:

Amaranth is also known by the name of Kiwicha. It is a great source of lysine and amino acids with protein content comparable to that of milk. It also contains primary proteins called albumin and globulins that, compared to prolamines in wheat, are more soluble and digestible.

Chia Seeds:

Chia contains an excellent source of fiber, antioxidants, calcium, proteins, fatty acids, omega 3, manganese, magnesium, phosphorus, and they also contain a good amount of zinc, vitamins (B1, B2, B3), and potassium.
